Apple IPhone / iPod Touch Wireless Instructions

1. Select **Settings**

2. Under the **WiFi** Option select the **Connect to UCOL** network. This will give you access to the UCOL Intranet.

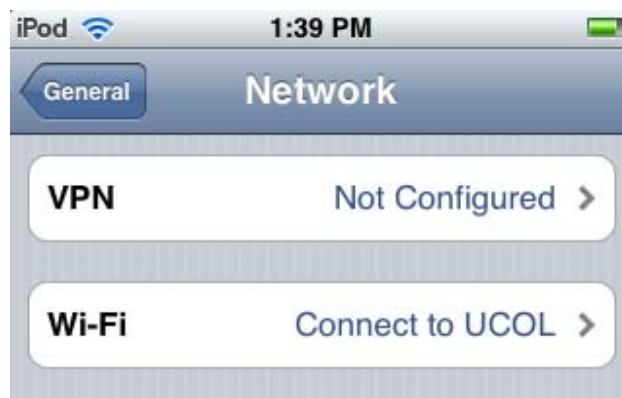

3. In **Settings** again, select **General**

4. Select the **Network** option

5. Select **VPN**

6. Select **Add VPN Configuration**

7. Select **PPTP** and enter in the following settings:

a. Description – UCOL VPN
b. Server – **VPN.UCOL.AC.NZ**
c. Account – Enter in your UCOL ID Number
d. Password – Enter in your UCOL Password
e. Send All Traffic – Should be set to **ON**

8. Press the **SAVE** option

9. When you select **VPN ON** a symbol should appear up the top.

Now, whenever you wish to connect to the Internet go to your **Settings** option and move the **VPN** Button to ON.
